VictoryShares®

# VictoryShares Nasdaq Next 50 ETF

As of December 31, 2023

**Offers exposure to the new generation of innovators: 50 stocks that are next in line for inclusion in the Nasdaq-100 Index®.**

**Seeks to provide investment results that track the performance of the Nasdaq Q-50 Index® before fees and expenses.**

## About the index

Aligns with the innovation and growth focus behind the time-tested Nasdaq-100 Index, but with an emphasis on the next generation of market leadership.

- The Index is a market-capitalization weighted index designed to track the performance of the 50 securities that are next-eligible for inclusion into the Nasdaq-100 Index.

## Index methodology

- Starts with a universe of all companies, both domestic and foreign, that are listed on the Nasdaq Stock Exchange
- Removes all companies classified as financials
- Selects the largest 50 companies, based in market capitalization, that are not currently in the Nasdaq-100 Index

## Why QQQN?

- Provides a cost-effective opportunity to invest in the next generation of innovators
- Offers diversification into forward-thinking, disruptive companies beyond the established, mega-cap and large-cap leaders in the Nasdaq-100 Index
- Deploys the proven methodology behind the time-tested Nasdaq-100 Index, with its emphasis on innovation and growth

## ABOUT VICTORYSHARES

**Past performance does not guarantee future results. The performance data quoted represents past performance and current performance may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. To obtain performance information current to the most recent month-end, visit [www.victoryshares.com](http://www.victoryshares.com).** ETF shares are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Market price returns are based on price of the last reported trade on the fund's primary exchange. If you trade your shares at another time, your return may differ. Returns

include reinvestment of dividends and capital gains. Performance for periods greater than one year is annualized. Fee waivers and/or expense reimbursements were in place for some or all periods shown, without which, fund performance would have been lower. High, double-digit returns are highly unusual and cannot be sustained. Investors should be aware that these returns were primarily achieved during favorable market conditions. Net expense ratio reflects the contractual waiver and/or reimbursement of management fees through October 31, 2024.

**Carefully consider a fund's investment objectives, risks, charges and expenses before investing. To obtain a prospectus or summary prospectus containing this and other important information, visit [www.vcm.com/prospectus](http://www.vcm.com/prospectus). Read it carefully before investing.**

**All investing involves risk, including the potential loss of principal.**

The Fund has the same risks as the underlying securities traded on the exchange throughout the day. ETFs may trade at a premium or discount to their net asset value. Index Funds invest in securities included in, or representative of securities included in, the Index, regardless of their investment merits. The performance of the Fund may diverge from that of the Index. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from economic or political instability in other nations. Investments concentrated in an industry or group of industries may face more risks and exhibit higher volatility than investments that are more broadly diversified over industries or sectors. Technology companies may be adversely affected by economic downturns, short product cycles, aggressive pricing, market competition and government regulation. The value of your investment is also subject to geopolitical risks such as wars, terrorism, environmental disasters, and public health crises; the risk of technology malfunctions or disruptions; and the responses to such events by governments and/or individual companies.

Fund holdings and sector allocations are subject to change, may differ from the Index, and should not be considered investment advice.

**Average Price/Earnings (P/E) Ratio** is the current share price of a stock divided by its earnings per share. **Market capitalization** is the total dollar value of all outstanding shares computed as number of shares times

[www.victoryshares.com](http://www.victoryshares.com) // 800.991.8191

current market price. **Market price** is the price of the last reported trade on a fund's primary exchange. **Net asset value or NAV** is a fund's total assets minus its total liabilities, divided by the number of outstanding shares. **Premium/discount %** indicates whether an ETF is currently trading at a higher or lower price than the current value of the securities in that portfolio.

**The NASDAQ Q-50 Index** is a market-capitalization weighted index designed to track the performance of companies that are next-eligible for inclusion into the NASDAQ-100 Index. The Index is comprised of 50 securities ranked by market capitalization and reflects companies across major industry groups, except financial companies. **The S&P 500® Index** is a market-capitalization-weighted index that measures the performance of the common stocks of 500 leading U.S. companies.
