TAX-EXEMPT INCOME INFORMATION

Certain states do not tax mutual fund dividends derived from interest on obligations issued by that state or U.S. territory. However, they may tax dividends derived from interest on obligations of other states. The table below shows the percentage of exempt-interest dividends derived from each state or territory. To determine the amount which may be exempt from state income tax, multiply the amount reported in box 12 of Form 1099-DIV by the percentage shown in the table below for your state or territory.

Certain states require that a mutual fund meet certain minimum thresholds with respect to investments in, or income from, state-exempt securities in order for any dividend income derived from these obligations to be exempt from state income tax. Please consult your tax advisor regarding these requirements.
