Past performance cannot guarantee future results. Returns for periods greater than one year are annualized. Returns are expressed in U.S. dollars and reflect the reinvestment of dividends and other earnings. Composite and benchmark returns are presented net of non-reclaimable withholding taxes, if any. Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns reflect gross performance less investment management fees. Net-of-fees returns are calculated by deducting 1/12 of the highest tier of the

standard fee schedule in effect for the period noted (the model fee). The composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is required to ensure the model composite net-of-fee return is lower than or equal to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. The firm's fees are available on request and may be found on Part 2A of its Form ADV.

The RS Large Cap Growth Composite includes all discretionary accounts invested in the Large Cap Growth Strategy. The Strategy invests principally in equity securities of large-capitalization growth companies. The composite creation date is June 2009 and the composite inception date is June 2009.

The benchmark of the composite is the Russell 1000[®] Growth Index. The Russell 1000[®] Growth Index is an unmanaged market-capitalization weighted index that measures the performance of those companies in the Russell 1000[®] Index (which consists of the 1,000 largest US companies based on total market capitalization) with higher price-to-book ratios and higher forecasted growth values.

All investments carry a certain degree of risk including the possible loss of principal, and an investment should be made with an understanding of the risks involved with owning a particular security or asset class. Interested parties are strongly encouraged to seek advice from qualified tax and financial experts regarding the best options for your particular circumstances.

Index returns are provided to represent the investment environment during the periods shown. Index performance does not reflect management fees, transaction costs or expenses that would be incurred with an investment. One cannot invest directly in an index. **Past performance does not guarantee future results.**

Risk Statistics source: Zephyr StyleADVISOR. Characteristics, Top Ten Holdings and Sector Diversification source: FactSet Research Systems, Inc. The top ten holdings and sector diversification are presented to illustrate examples of the portfolio's investments and may not be representative of the portfolio's current or future investments.

Holdings are subject to change and should not be construed as a recommendation to buy or sell individual securities.

Information relating to portfolio holdings is based on the representative account in the composite and may vary for other accounts in the strategy due to asset size, client guidelines and other factors. The representative account is believed to most closely reflect the current portfolio management style.
