Firm assets prior to 2025 are shown as "N/A" above as the composite was not part of the firm.

*Composite Net Model Fee Returns are presented as supplemental information. Net Model fees are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee).

1. Victory Capital Management Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Victory Capital Management Inc. has been independently verified for the periods January 1, 2001 through December 31, 2025. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.
2. Victory Capital Management Inc. (VCM) is a diversified global investment adviser registered under the Investment Advisers Act of 1940 and comprises multiple investment franchises: Integrity Asset Management, New Energy Capital Partners, Pioneer Investments, RS Investments, Sycamore Capital, Trivalent Investments, Victory Income Investors, and the Victory Capital Solutions Platform. Effective December 1, 2025, Munder Capital Management is no longer part of the GIPS firm.
3. The Pioneer International Equity Strategy seeks long-term capital appreciation by investing primarily in equity securities of large-cap companies located internationally. The Strategy seeks to accomplish this through an actively-managed approach that combines top-down factors with bottom-up fundamental analysis to identify securities selling at reasonable prices or substantial discounts to their underlying values. Factors considered in selecting individual securities include, favorable expected risk-return ratio, above-average potential for earnings and revenue growth, high returns on invested capital, and low debt. The composite creation date is March 1993, and the composite inception date is April 1, 1993. The benchmark of the composite is the MSCI EAFE Index (Net).

Pioneer International Equity Strategy

Composite Performance

4. The benchmark of the composite is the MSCI EAFE Index (Net). The MSCI EAFE Index (Net) is a free float-adjusted market capitalization index that is designed to measure developed equity market performance, excluding the U.S. and Canada. The benchmark returns are provided to represent the investment environment existing during the time periods shown and are not covered by the report of independent verifiers. For comparison purposes, the index is fully invested, which includes the reinvestment of income. The returns have been taken from a published source and do not include any transaction fees, management fees, or other costs.
5. The internal dispersion of annual returns is measured by the standard deviation of asset-weighted gross returns of accounts included in the composite for the full year. If less than six portfolios are included in the composite for the full year, no dispersion measure is presented, as it is not considered meaningful (N/M). The three-year annualized ex-post standard deviation measures the variability of the composite's gross returns, and the benchmark returns over the preceding 36-month period. It is not required to be presented for annual periods when a full three years of composite performance is not yet available.
6. Composite and benchmark returns are presented net of non-reclaimable withholding taxes. Gross-of-fees returns are presented before management and custodial fees but after all transaction costs. Through December 2019, the Composite Net Return is calculated by reducing the gross of fee returns monthly by the highest tier of the standard fee schedule. As of January 2020, actual fees are used to calculate the Composite Net Return. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. Prior to 4/1/2026, the model fee was 0.65% on the composite. The composite includes a limited distribution pooled fund (Pioneer International Equity Collective Fund). The highest fee schedule is 0.50% and the total expense ratio for the fund is 0.58%. The complete fee schedule for this product is:

| <u>Market Value</u> | <u>Annual Fee</u> |
|---------------------|-------------------|
| First \$50,000,000 | 0.50% |
| Next \$100,000,000 | 0.45% |
| Above \$150,000,000 | 0.40% |

7. Valuations and returns are stated in U.S. dollars. Past performance should not be considered indicative of future performance. Composite returns reflect the reinvestment of dividends and other earnings. A list of broad distribution pooled funds, composite and limited distribution pooled fund descriptions and policies of valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Registration with the SEC does not imply a certain level of skill or training.
8. The composite is managed by Pioneer Investments (formerly Amundi Asset Management US, Inc. Performance prior to April 2025 occurred while the team was affiliated with a prior firm. Such members of the portfolio management team were responsible for investment decisions at the prior firm, and the decision-making process has remained intact. The historical performance has been linked to performance earned at Victory Capital Management Inc.
